

New Generation High Performance VoIP Telephone

★ IP870

IP870 is the best broadband VoIP telephone that makes your long-distance and international call charges disappear from your phone bills. It allows you to call any regular phone in the world. Utilizing your existing data network, IP870 brings you the new generation communication over the Internet.

▶ Innovative Communications

Integrating VoIP and analog telephony functions into a single phone set, IP870 brings you more flexible ways to communication. IP870 supports Ethernet connection from xDSL, Cable or Leased Line. It possesses its own processor. No computer is needed. Incorporating DSG JustDialIt Technology, the IP870 is extremely easy to configure and delivers superior voice quality.

Inherent the DSG Global ITSP Network Services, you will have seamless communication to regular phones worldwide with amazing low calling rates. Moreover, you can make calls over the Internet to other DSG VoIP devices such as IPStar, InterStar, InterPhone, IP770 and IP870 for free.

In addition to the advanced VoIP functions, IP870 also provides many convenient telephone features such as the Last Number Redial, Speed Dial, Mute, Volume Adjustment and Speaker Mode. IP870 is the perfect VoIP telephone to call anywhere in the world.

Benefits

- Include Internet Telephony Services
- Superior Voice Quality
